

The Rollin' Rock

Bulletin of the Roseville Rock Rollers Gem & Mineral Society, Inc.
Volume 50, Issue 1 - January 2009

From the President's Pen

As we enter into a new year, we must look back at last year and note many of the our Club's successes. Membership has grown immensely, showing that there is a great interest in our hobby. We must be doing something right to attract new members. At our show, our members came through with plenty of participation and great ideas, making it one of the best ever. That alone caused a surge in membership. The lapidary shop, with cabochon classes and 24/7 access for members, is definitely a big attraction; this is successful because of dedicated instructors and staff. Classes on a variety of subjects, offered throughout the year, are also a big hit. The Rookie Rock Rollers have grown in leaps and bounds and are doing good things to educate our youth. Our monthly Educational Meeting with a program, silent auction, refreshments, and show and tell, all helped reinforce the attraction to our club and great hobby. Bottom line, Club Officers and membership combined, helped make last year great. This was a job well done by all. Thank you.

Now for the New Year, 2009, we have quite an act to follow. I am confident that we can continue with the same degree of quality in all areas, and excel in others. With increased membership comes the need for greater participation. With new members, comes a more diversified knowledge of our hobby, as quite a few newer members bring their experience to share with everyone. If you are new to the club, just remember that we were all new to the club at one point. Learn from us and we will learn from you. One good way to "get your feet wet" is to become an assistant chair or committee member. There is little responsibility that goes along with being an assistant but you will learn.

Past President Jim Hutchings gave many years of his life to this club and when he could have rested a while, he instead stepped up to be Vice President when no one else would. Being in charge of programs, he has some great ideas to bring even better programs to our Educational Meetings. We welcome Jim back, but maybe next year someone could take over and convince him to step aside and take that bit of a break he so deserves.

We always have a table at the Gem Faire, which is this month. Please sign up to help for a few hours. We have found that it is a great way to advertise our annual show and attract new members.

Our annual show is rapidly approaching and we need everyone to plan on helping. The more help we have, the easier it goes, all the way from setup to final takedown. Believe it or not...we have a good time doing it each year!

--- Jon North

Vice President's Viewpoint

What a great feast was had in December! Sorry if you missed it. The education meeting for January will feature Rick Kennedy. Rick is a vendor of fine mineral specimens. Rick will give a presentation on the State Gem Mine, the world renowned location of the only (known) source of Benitoite, the official state gemstone of California.

-- Jim Hutchings

Educational Program for January 13, 2009

The education meeting for January will feature Rick Kennedy, with a presentation on the State Gem Mine, the location of the only (known) source of Benitoite, the official state gemstone of California. Rick has been associated with several of the mine owners and a collector of Benitoite for over 20 years. Rick made a shorter presentation on the Benitoite mine at the Tucson Gem and Mineral Show symposiums in 2008, and Jim Barton made previous arrangements for him to make the full presentation for us. He would be glad to evaluate any of the specimens that you bring to the meeting and will be happy to give you instruction on the etching and cleaning of crystals or rough material. Rick will update us on the current status of the mine and the closing of the roads in the Clear Creek area.

MINUTES FOR ROSEVILLE ROCK ROLLERS EDUCATIONAL MEETING DECEMBER 9, 2008

Call to Order by President Jim Hutchings at 6:40 p.m.

Flag Salute

Invocation – Milt Houston said grace.

Present: 74 members, 5 juniors and 6 guests.

Recess – for dinner

Announcements: Awards – Jim Barton received an award/name badge for “Mill Wright” for his work at the Lapidary Shop and Don Evans received an award/name badge for “Shop Foreman”.

Gift Exchange - those who brought gifts to exchange did so.

Drawings for Halite – Gloria Marie brought in halite specimens and winning members’ names were drawn.

Refreshments – Karla Shannon took signups for refreshments for January.

Slate of Officers for 2009 – Jon North presented the slate. A motion was MSA to approve the nominations for officers for 2009. A motion was MSA to vote the candidates into office.

CFMS Awards – outgoing officers were presented their CFMS bars or triangles by Charlie Brown.

Installation of Officers – Charlie Brown installed the officers for 2009. Brief job descriptions were read and each received an item to assist them in their office.

Lifetime Membership Award – Betty Soper-Arnold has been a member of RRR for 25 years. She received a Lifetime Member name badge and certificate.

CFMS Education Thru Sharing Award – this was presented to Jim Barton.

Photos were shown.

Adjournment – meeting was adjourned at 8:10 p.m.

Respectfully submitted,
Florence Brady, RRR Secretary

MINUTES FOR ROSEVILLE ROCK ROLLERS BOARD MEETING DECEMBER 9, 2008

Call to Order at 8:15 p.m. by President Jim Hutchings.

Present: Jim Hutchings, Jon North, Jim Barton, Florence & Hugh Brady, Terry Yoschak, Shaun Chapman, Lisa Giampietro, , Karla Shannon. Absent: Diane Killen, Jack Harris, Nancy Hood and Stan Bollinger.

Membership – a motion was MSA to approve the membership applications (for 2009) for Haley Dutton and Richard Harter.

AFMS Website Contest – Terry Yoschak sent in the application for the contest.

Gem Faire – on January 23, 24 and 25. Florence will make up a schedule and will have it at the January Educational Meeting. Jim Barton will see if he can help with setup.

Librarian-Historian – Jon will be getting in touch with Diane to arrange for getting the clubs’ property.

Chairpersons – Jon will get in touch with the chairpersons to see if they wish to continue.

Roster – an updated officers, chairpersons roster was sent to the Board members.

Mailbox – Jon will start checking the RRR mailbox twice a week.

Renewals – membership renewals are slowly coming in, 164 adults & juniors have renewed.

Wilbur Scott – a \$25 check will be sent to the local hospice in his memory.

Bulletin – Terry said the deadline will be January 1st or 2nd.

Program – Jim H. said he will confirm that Rick Kennedy will do a program on benitoite.

Adjournment – meeting was adjourned at 8:30 p.m.

Respectfully submitted,
Florence Brady, RRR Secretary

2009 SHOW: AUCTION AND RAFFLE

Our show time in March will be on us before we can turn around. Now is the time to begin thinking about what you can make or donate to the auction and/or raffle. After several years of tapping donated collections, we have gone through much of the best material and therefore will be looking to our members to bring forth their "excess" diamonds, rubies and gold. Seriously though; when considering making a donation to the show ask yourself, "Would I buy this if I didn't already have excess in my collection?" Please start bringing your material in to the meetings and give it to Nancy Hood, or make arrangements with her to have it picked up.

The AUCTIONS seldom go to commercial values, so you shouldn't purchase material. However, if you see a bargain or a collection that is being liquidated reasonably, please let us know so we can consider it.

Some of the material the club already has might sell better if it were worked; polished a bit, or even cabbed. If you would like to help with this let one of the Show Committee know. Please keep in mind that material is also needed for our Kids' Junction grab bags and giveaways.

The RAFFLE always needs good prizes. In the past, the club has received many good donations from members; principally rock, gem or mineral related, and it still appreciates these. At other recent shows there have been mounted pictures, etchings, overnight stays in Reno, gift baskets and a wide variety of goodies. If you have business contacts, relatives or friends who might make a donation, talk to the Raffle Chair and let's broaden our array of prizes. -- Nancy Hood

2009 Show – March 27, 28, 29

We need club members to help on Friday the 27th for setup and then during the show hours on Saturday and Sunday. We also need help with the takedown procedure which starts at 4 p.m. on Sunday.

For our new members, don't hesitate to help, as you will be working with other club members who can provide any needed assistance to you. Remember, once it was all new to us, too!

Areas where help is needed are:

Setup on Friday, starts at 9 a.m.

Takedown, starts at 4 p.m. on Sunday.

Kitchen, Admissions Tables, Raffle Table, Silent Auction, Kids Junction, Security, Shop Tours and Club Information Table.

Each Show Day, the shifts are: 9:30 – 1:30 and 1:00-5:00. Each volunteer who works a full shift will receive a ticket for the "Workers Raffle." **Double tickets are awarded for Setup and Takedown workers.** Committee heads are not eligible to earn raffle tickets.

Signups will be taken at our Educational Meetings, starting with January's meeting. We will have a list of job descriptions available.

-- Florence Brady

January Refreshments

Refreshments for the January 13th Educational meeting are to be provided by Kathy Messer, Gloria Marie, Diane Lister, Rhonda Esgro and Darla O'Connor. Thank you all in advance!

We would appreciate if each family would sign up and bring a refreshment once in 2009.

Sunshine

Nancy Hood has been recovering from a foot infection.

When you know of any member who is ill or has been hospitalized, please contact Margarita & Marietta at 916-723-8773.

Renewal of Dues

If you have not paid your membership dues for RRR for 2009, this will be your last issue of the bulletin. There is a late fee penalty, \$3, for dues paid in January.

Welcome New Member

Richard Harter

Welcome New Junior Member

Haley Dutton

Thanks for joining our club! We hope you will find many rewards and many friends among those who share our wonderful hobby!

January Show Meeting

The meeting will be held Tuesday, January 6, 2009, at 6:30 pm, in the club Lapidary Shop at the fairgrounds.

January Board Meeting

The meeting will be held Tuesday, January 27, 2009, at 7:00 pm, in the club Lapidary Shop at the fairgrounds.

Rookie Rock Roller News

The Rookie Rock Rollers are getting ready to work on their Earth Resources patches. We will do part one for this patch at our regular 5:30 meeting on Jan. 13 at our club shop on the Roseville Fairgrounds. We hope to do a fieldtrip on January 24 and will give more details at the meeting. Please contact us for more information if you are not able to attend the regular meeting. We are hoping to have the children interview some guests who use rocks or minerals in their professions. Each person will be asked to give a very brief description of their jobs and will be asked some questions by our juniors. We are also looking to develop a club collection of minerals that are the basis for commercial products. If you have extra items in your collection you can donate, we would love to have them. all Please contact Ron Riebeck or Cathy Hutchings at the meeting or give us a call if you have ideas for guest speakers or donations of minerals. Cathy Hutchings 530-367-5108, Ron Riebeck 916-771-8619.

-- Cathy Hutchings

Gem Faire January 23, 24 and 25

RRR Volunteers are needed to work at the Gem Faire held at the Roseville Fairgrounds. The purpose is to promote our upcoming show (last weekend in March) and our Club. Informational handouts will be available. **You will receive a free pass for the Gem Faire.** Please sign up during the Educational Meeting or call Florence (916) 961-6868.

Shifts:

Fri., Jan. 23 Noon - 3:00 and 3:00-5:30

Sat., Jan. 24 10:00-12:30, 12:30-3:00 and 3:00-5:30

Sun., Jan. 25 10:00-12:30, 12:30-3:00 and 3:00-5:00.

FOR SALE

Lortone LCC 6" Combination unit with light. Used once, decals still on front - \$500.00

Satellite Kiln BurnOut Oven 100 series - Never used, still in box - \$600.00

Large Heavy duty buffer. Never used - \$500.00

These and other misc. items have been in storage for several years. Need to sell.

Contact: Devora Weathers (916) 722-9263

"Members' Wonders" Booth at Our 2009 Show

As a new member of the RRR and fascinated with the cabs and wire wrapping, I started to make jewelry. Now with enough made for a sale, I approached the board and asked if it is possible for members to have their own co-op booth at the show to sell jewelry. Co-op meaning

anyone who makes and wants to sell their jewelry joining together to run a booth. I have permission to reserve an 8' booth at the show for the sale of our jewelry. Jim Hutchings agreed to let us use his resale number for tax purposes.

This booth is open to anyone in our Club who wants to sell jewelry and has the time to help with shifts through-

January Birthdays

T-Shirts, Vests, Patches, Caps, Pins

All will be for sale at the January 13 meeting.

- T-Shirts, adult sizes \$10, junior sizes \$8
- Vests, \$15 (no pockets) and \$19 (pockets)
- Patches, \$2 (small, 2½-inch, \$7 large, 8-inch)
- Caps, \$6.00 (non-printed)
- Pins, \$3 (large), \$2 (small)

out the 2-day show. The cost to each member who enters jewelry will be the equal division of the table cost of \$125.00. The shifts will be divided into 2-hour shifts with sign-up sheets to choose a scheduled time. This booth's intention is not to interfere with those who volunteer for the show.

The members selling jewelry will receive an inventory/control sheet where every piece is individually coded and priced. This inventory sheet is also our check-in control sheet and the accounting sheet to determine your sales at the show. A two part price tag will also be handed out with lines for your code, description of your jewelry and the price of your piece which matches the inventory control sheet. More information will be available as we determine the interest of club members in selling at the booth.

I can be contacted at calynrae@comcast.net or 916-601-9921. Thank you,

-- Calyn McKnight

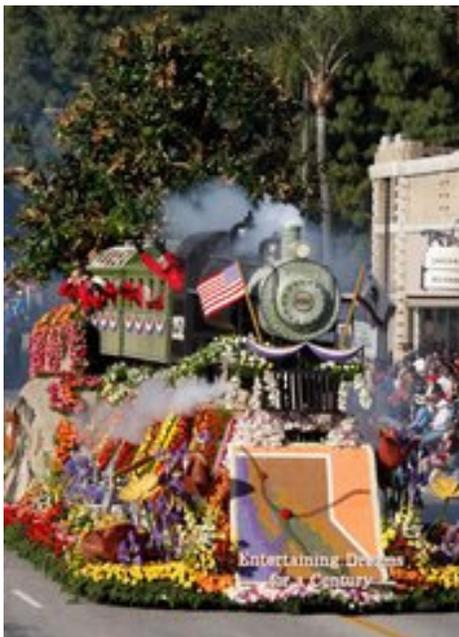

Tour of a Local Collection

Fossils for Fun Club member, Don Tadlock, has offered two tours of his petrified wood, fossils and minerals collection.

Location is Citrus Heights. The date is Saturday, January 17th and there will be two tours, one at one o'clock and one at three o'clock. These are limited to 12 attendees for each tour time.

To sign up for a tour, contact Jim Hutchings, (530) 367-5108 or sign up during the Educational Meeting. Directions will be given to each person who signs up.

-- Jim Hutchings, RRR Vice President

The city of Roseville's float in the 2009 Rose Parade won the Governor's Trophy for best depiction of life in California.

The float – "Entertaining Dreams for a Century" – commemorating Roseville's centennial, was 55 feet long and 25 feet high. It was a re-creation of a 1909 vintage train engine and two Pullman passenger cars.

WHEN - February 7, 2009

SPONSOR CLUB - Calaveras Gem & Mineral Society

MEMBER'S GUESTS - Allowed

COLLECTION MATERIAL - Magnesite and Common Opal - a brownish to red color.

LEADER & CONTACT INFO - Robert Young, (209) 728-8454, H (530) 545-0932 Cell

Is This Hole Taken?

You are collecting with a group of rockhounds. You notice a hole which had been recently dug. In the hole are someone's tools. The owner of the tools is nowhere to be seen. What do you do?

- A. Pick up the tools to find the owner.
- B. Leave the tools in the hole.
- C. Remove the tools and begin to collect in the hole.
- D. Become happy, you have some new tools.

I have seen many occasions where people, who thought they were being helpful, pick up the tools from the hole to find the owner. After removing the tools someone else comes along and begins to dig in the hole. I have seen people remove tools from a hole and begin to collect in the hole. I have seen people pick up tools from a hole and put them in their bucket.

What should you do? When you are collecting with a group or are in an area where there are other people and see tools left in a hole, leave them be! When someone digs a hole, that hole is their hole. If they pick up their tools and leave, they give up that hole. If they leave their tools in the hole, that hole is still their hole. They may have gone to eat lunch. They may have gone to the bathroom. No matter what, they have not abandoned that hole! Do not be helpful and take the tools to the people. You just gave away their hole. It may have been a very productive hole and instead of being happy to see the return of their tools, they are ticked off at you for causing the loss of their hole.

On the other hand, I have seen someone dig multiple holes and leave tools in each one. This is wrong. This is being hoggish. If you want to dig somewhere else, remove your tools! Offer the hole to someone else, or fill it in. You will gain no friends by claiming multiple digging sites.

In a similar case, if you see a specimen or pile of specimens lying about, this may or may not be specimens which have been culled out. Ask around. If the specimen or pile of specimens have a circle dug around them, these specimens belong to someone else. It is possible that the person's collecting bag or bucket may have been full. They may have gone to bring back a collecting bag or bucket. They may be shuttling the specimens back to their vehicle.

New rockhounds join us who do not know our rules. We have some people who don't think. And then, I hate to say it, there are some unscrupulous rockhounds. Have fun while you are collecting, but think about others while you do so.

Author unknown, from Cotton Indian Gems 9/06, via Rock Lore 12/06

Heat Treating Rocks

You have just removed a slab from an agate rough, and you are disappointed with the color. The overall color is a washed out white. At this point, most rockhounds would toss both the slab and the rough into their rock garden and write off the investment in the piece.

Well, there may be a life yet in that nondescript piece of rough. Try heat treating agate, jasper, petrified wood and many other types of rocks. Almost any sedimentary rock can benefit from the process. A recent example was a piece of dull brown agate. After heat-treating, it became a deep red.

How, you ask, does one go about heat treating a piece of rock? The process is relatively simple, but is a trial and error process. The slab should be immersed in a small pan of sand and placed in a range oven. Turn the oven temperature to warm, about 200 degrees, for about one hour to expel any moisture trapped in the stone, then raise the temperature 25 degrees every half hour until the temperature is up to 350 degrees. Leave it at this setting for two hours, then turn off the oven and allow the rock to come to room temperature without opening the door.

Now you can check the results. If you are satisfied, you can slab the rough and heat-treat the lot. If not, return the slab to the oven and repeat the process. You can skip the time at 200 degrees since all the moisture has already been baked out by now. Raise the temperature to 400 degrees this time. Continue raising the final temperature by 50 degrees until the results you want are reached. Most ovens will go up to 500 degrees. If you need to go higher, some special oven will be required.

Author unknown, from Texas Faceters' Guild Newsletter 11/04, via The Stone Chipper 8/06

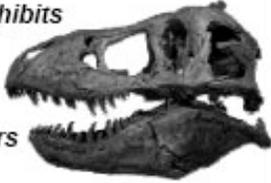

To download a PDF file about heat treating rocks, go to <http://www.wamsi.org/pages/rocksp.html> (website of the Willamette, OR, Agate & Mineral Society).

This easy-to-understand file has "Rock Recipes" for cooking various types of agate, jasper, and petrified wood.

GARNETS were used as ammunition in 1892 by the Hanza tribe against the British in Kashmir. The tribesmen thought a bullet made of garnet would attack the bloodstream. Unfortunately, the garnets were probably shattered by the black powder. In effect they were shooting blanks at the British, who replied with volleys of lead bullets. It was a tradition that died hard. -- *Herbert's Jewelers Online, <http://www.herbertsjewelers.com/birth.htm>*
