

From the President's Pen

It's Show Time! We are about to be a part of one of the largest Gem & Mineral Shows in Northern CA, which is something that you can be proud of! Our Show Chair, Jim Hutchings, has worked tirelessly all year long behind the scenes locating new vendors or exhibits that will delight and amaze you. Our behind the scenes crew will start Thursday night, with our set-up crew starting Friday morning. Then the Show starts & goes thru to Sunday. The take down crew starts Sunday at 4 pm. We could greatly use more help! Sit-down jobs are available (admission or Kid's Junction) as well as feeding the masses (kitchen area) or setting up rocks (silent auction) and if you like talking to people (raffle tickets) as well as dropping off store bought cookies or desserts. There's something for everyone - encourage a youth group, scout troop, or fellow co-workers to join us (contact Florence: fhbrady@jps.net) There's a beautiful amethyst specimen to be won by a lucky worker! Remember: work 4 hours, attend the Show for free!

History of the Stifle Memorial Claim

Situated on Traverse Creek, 1.3 miles from Georgetown Road (Highway 193) is the Stifle Memorial Claim, which is now part of the Traverse Creek Special Interest Area. At one time, it was owned by the El Dorado County Mineral and Gem Society but was relinquished to the U.S. Forest Service in 1995. It is maintained for the enjoyment and collecting interests of all rockhounds and students of the county's geology. On Google Maps, the parking for this site is located at coordinates 38.872637, -120.818669.

The Stifle claims were deeded to the Society as a memorial to William Louis Stifle by Byrl A. (Jack) Stifle, a second cousin. The claims are essentially a serpentine deposit, but contain many other mineral formations such as chrome, clinocllore, grossular, diopside, idocrase, psilomelane, and tremolite.

While it is not know as to just why Stifle was attracted to this locality, later newspaper clipping refer to his panning for gold on a serpentine belt running east and south of Georgetown, and having assay tests showing nickel ore with some silver present. Gold colors can still be obtained by panning in Traverse creek on the claim. El Dorado County records show that the original Stifle claim was recorded November 4, 1918.

Articles in Georgetown, Stockton and Placerville newspapers of December 1924 state that emeralds of commercial value were found by Stifle at a depth of 8 to 50 feet. "Pockets containing about a pint of

John Veevaert will be speaking to us on the topic, "The Struggles of Becoming an Online Mineral Dealer in 1995, and My, How Things Have Changed!" His experience with minerals on the Internet spans twenty years. He currently owns Trinity Minerals and operates an online mineral auction website. Come join us on March 8 to hear all about the online mineral world.

crystals were found in hornblende schist veins, cutting the serpentine, principally in a 175 tunnel on the Stifle claim. Stifle claims to have found and sold some 4,000 carats of these crystals, pronounced by San Francisco experts as being genuine emeralds."

In Volume 22 of the California State Mineralogists Report, reference is made of emerald beryl being found near Georgetown, but re-examination of material indicates it is a green pyroxene rather than beryl. (Small vesuvianite crystals may still be found in an area above the mine tunnel on the original Stifle claim. Jack Stifle and some of the early club members have sizable green crystals in their collections).

Adolf Pabst, University of California geologist, mentions small crystals of vesuvianite being sold by mineral dealers in 1925. His report in Volume 21, Report of California State Mineralogist, states "Veins exposed in numerous pits and prospect holes. Veins in main gem pit on West Hill (small hill west of Traverse Creek and north of Bear Creek Road) 3 inches thick, worked to a depth of 15 feet for 50 feet in strike. Most common crystals are yellow green. Violet and purple crystals are rare and found only in patches lining vugs". He also mentions finding colorless grossularite crystals from main pit.

In July of 1954, Jack Stifle arranged for the El Dorado County Mineral and Gem Society to take over the claims by means of a quit claim deed and bill of sale for the cabin and tools and furnishings.

Rookie Rock Roller News

The Rookies will meet in the lapidary shop at 5:30 on Tuesday, March 8, 2016. At our last meeting, Rookies Cora, Nick, and Quentin gave a presentation to the adults at the educational meeting on what the juniors do all year in their meetings. Nick gave his presentation on Tiger Eye and Quentin presented Ruby, Corundum. We treated the adults to a quick photo slide show of the juniors in action. What fun that was!

At our March meeting, we will take a look at identification kits and what we can do with them. After that, we will have some fun. Don't forget to sign up for some hours at Kids' Junction at the Show. Profits from our show keep our Rookie program going. Do you have extra polished rocks or even a supply of rocks you think kids might want? Bring them to the March meeting with "Juniors" written on the container. We always find a use for them at the show. One man's trash is a Rookie's treasure.

See you all at the meeting,

Carole Kowalik, Junior Advisor

Show Time!

Well, we are only weeks away from one of the greatest shows in Northern California.....and it's the Roseville Rock Rollers Gem and Mineral Society Show! It is falling into place through the dedicated efforts of the Show Committee and the Show Chairs!

We are only missing two things to make this effort all worth it! Volunteers and visitors! Every year, we get this close and find ourselves worrying that we can fill all the volunteer slots to run the show properly and allow everyone who works, to also see the show! Usually, we are always looking for volunteers to fill those last slots right up to show time! This year, with Easter, it adds a little difficulty. As in the past, we have asked our volunteers to consider plugging themselves in for Sunday if they have no religious or family obligations! That allows the others to work on Saturday.

I know many of you have been waiting to see how the sign-ups are going, and now is the time, we need to hear from you! Please email Florence Brady (fhbrady@jps.net) for available time slots, or plan on filling in the time slots on the schedule at our March Education meeting!

Florence and I will sleep much better if we know this last thing is covered! The visitors will come, they always have, even on Easter! But please take the flyer cards at the March meeting and get them into the hands of folks who may have never enjoyed such a show!

Thank all of you for your support. I and the vendors are excited to see this come together for 2016!

— Jim Hutchings, Show Chair

March Refreshments

Refreshments for the March 8th Educational meeting are to be provided by Holli Hinkle, Kim Loe, Cindy Hume, Teresa Johnson, Rick Lynch, Martha & Rob Nich-

ols, and Vern Deck. Thank you all in advance!

We would appreciate if each family would sign up and bring a refreshment once in 2016.

The Lapidary Shop Clean Up Day

will be Saturday, March 19 starting at 9 a.m. After that, the shop will be closed until after the show. There will be no orientation classes on Monday, March 21 or Wednesday, March 23.

Volunteers Needed for Our Show

We still have a need for volunteers to help during our show (Details in Jan. & Feb. bulletins):

- Set Up, Friday, March 25 starting at 9 a.m.
- Show days, March 26 & 27 - Saturday & Sunday
- Take Down Sunday, March 27, starting at 4 p.m.

Please contact Florence at fhbrady@jps.net to find out how/where you can help. Remember, no experience is needed! Signups will also be taken during the March Educational Meeting on Tuesday, March 8th.

Your reward is you are helping your Club and....you will be entered into the Worker's Raffle!

Florence Brady, Volunteers Coordinator 2016 Show

Food Donations

Donations of **STORE BOUGHT** cookies, cakes, pies, and other desserts are needed for the show. Bring them directly to the kitchen in Johnson Hall on show set-up day, Friday, March 25, or on Saturday or Sunday of the show, March 26 & 27.

Raffle Prize Donations Are Needed

Chris and Denise are requesting donations for the Show Raffle. We are looking for your rock art and jewelry. Also, we are looking for slabs. Please ID your items, and add your name if you wish. There will be a donation box on the Show & Tell table at the meetings and a box in the classroom at the shop.

Any more questions contact Denise at dedoodads@gmail.com or Chris at evergreen.369@juno.com

Mineral ID with Jim Hutchings

TBA Sign-up for next offering.

Learn the necessary tools, books & techniques of identifying rocks & minerals! Fee: \$25

Stereo-Microscope Workshop

TBA Sign up for next offering. Hands-on workshop on identifying gems and minerals, detecting flaws in lapidary material, and enjoying the beauty of smaller specimens. Scopes provided or bring your own. Fee: \$5

Remember - We ask that you sign up ahead of time for classes. For our classes listed as by appointment or TBA, we build the class based on sign-ups & instructors schedules. In other words, we make the date when we have sign-ups. Shop Clean-up is something everyone does! Use the full surface of the belts - to prevent premature wearing. A DVD is available for viewing at the Shop for Cabochon Making.

If you want to sign-up for any of the classes, email: classesforrockrollers@gmail.com

We are looking for someone to take the position of class co-ordinator for our Lapidary Shop.

It doesn't take much time, just a love for learning and being able to reach out to people to bring classes to our Shop.

- Looking out for opportunities to bring our members together to learn something they might not have done otherwise.
- Making sure the classes get into the Bulletin and announced at the meetings and keeping track that dates don't overlap.

Contact: classesforrockrollers@gmail.com

REFRESHMENTS NEEDED

While the club provides the drinks, all the snacks we enjoy before, during and after the monthly meetings are brought by club members. Without these volunteers we wouldn't have our great munchies.

As our club continues to grow we need at least 7 people/families to sign up every month (excluding potluck months) so there's plenty for everyone. If each family could volunteer at least once a year we'll continue to have great refreshment available at the monthly meetings. The sign up sheet is on the Show 'N Tell table, sign up for whichever month you prefer.

— Chris Davis, Refreshments Chair

The Wearin' of the Green

No, we're not talking about St. Patrick's Day! We're talking about wearing your **GREEN** Rock Rollers club vest, or cap, or T-shirt. Wear them to our show. Buy them at the club meeting.

T-shirts \$10, Vests \$20, Patches various prices.

A "CO-OP MEMBER" FIELD TRIP TO PILLIKIN MINE IN PILOT HILL, CA

TRIP LOCATION – Pillikin Mine in Pilot Hill, east side of Folsom Lake.

TRIP DIFFICULTY RATING SCALE:

Vehicle Access & Parking - # 3 - 4 vehicle access and parking good for most vehicles and RV's, no specific handicap parking

Collection or View Site - #5 – 1/2 to 1 mile trail to site with moderate difficulty

WHEN – Sunday, March 06, 2016

SPONSOR CLUB – Roseville Rock Rollers Gem & Mineral Society

LEADER & CONTACT INFO – RRR Field Trip Leader, Gordon Standlee, (209) 643-9847

MEMBER'S GUESTS - Allowed

COLLECTION MATERIAL – Collecting at the main mine site we will be looking for uvarovite garnet, chrome minerals, common opal, jasper.

PROPOSED SCHEDULE – We will be hiking into the main workings area of the Pillikin chrome mines following the old haul road. With walking time and a couple of hours at the mine we should have about 4 hours of time devoted to this trip.

MEET - Meet at Rattlesnake Bar Rd. where the haul road meets the pavement. (I will park alongside the road at 8:00 where we are to start). Meet at 9:00, parking along the uphill side of Rattlesnake Bar Rd.

DIRECTIONS TO SITE/CAMP – Take Rattlesnake Bar Rd. from Pilot Hill, off Hwy. 49, (NOT from Auburn Folsom Rd.) Follow Rattlesnake Bar Rd., towards Folsom Lake boating/camping, approximately 7 miles. I will be parked with a "Roseville Rockrollers" banner on the left side of the road. If you get to the Lake you have gone too far.

VEHICLE REQ'S – Any vehicle is okay

CAMP/FACILITIES – No nearby facilities. The Lake is closed at this time of year.

TOOLS – Rock hammer, small pry bar, collecting bucket, small shovel

SAFETY CONCERNS – This is an open pit mine - there are steep walls and loose rock. Bring water & wear sunscreen.

CLIMATE/WEATHER – Typical March weather for this area

CLOTHING - Wear hat, shirt with sleeves, long pants, and boots.

OTHER REMARKS – They last mined this area in the 1950's. Flagstaff Hill has been mined in several places and most rockhound trips to this area are to the pits nearest the road. We will explore the main mine site which is harder to get to but should provide for better collecting. This site is easy access for anybody that can walk a couple of miles.

OWENS VALLEY, LONE PINE, CA 5-DAYS 5-SITES

TRIP LOCATION: Owens Valley, based in Lone Pine, CA
WHEN: Trip days are April 1-5 (add 2 travel days, March 31 and April 6th)
