

## From the President's Pen

Well, I hope everyone had a very Merry Christmas and a magnificent New Year. This is where I should provide a year in review of just what happened with our society and around us from a geological perspective.

The Roseville Rock Rollers lapidary shop opens up and begins 2019 running strong and reports throughout the year, Monday and Wednesday evenings with large numbers of members learning how to, or improving skills of cabochon making. The society's annual Gem and Mineral Show was had without a hitch. Work parties complete tasks around the lapidary shop in the normal "Get 'er done!" fashion. Numerous field trips are had and many members find some wonderful treasures for their collections.

Geological events that are a wonder to be present for: Kilauea Volcano erupts on the Big Island of Hawaii; Ridgecrest earthquake in Southern California. These two major events come to mind due to their geological effect and close proximity.

Here's to another year of creating some wonderful memories together as a great bunch of Rock Hounds!

—Glenn Fiala

## Show Flyers

We have thousands of each size flyers (business card size and postcard size) and we need to get them distributed.

At the January, February and March meetings, take some of these flyers and distribute them to friends, family, co-workers, anyone you meet!

**Point out that each flyer contains a coupon worth \$1 off on ALL admissions (everyone in the person's party at the admissions desk).**

Our research tells us that more people come to our show through personal reference from a "friend" than from newspaper ads or any other source.

**So YOU are the ones who will make our show well-attended!**

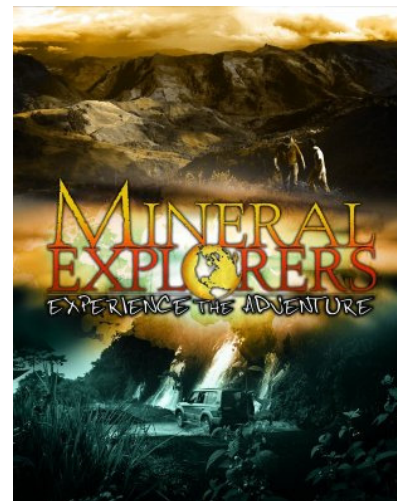

*Thanks from the 2020 Show Committee*

The Rookies will meet in the lapidary shop at 5:30 p.m. on January 14th, 2020. We will have a study of sedimentary rocks. Then we will move on to an activity after the lesson.

Last month, we created rock art with slices of trees, rocks and decorations. After the fun, we joined the adults for the potluck and gift exchange. My oh my, was that ever a great feast. I hope everyone had fun.

I would love to award juniors badges for all they worked on during the year. Let's make an appointment to see if you have earned any. I am available by phone, text, or email. You may contact me any time of day or night since I turn off the sound when I sleep.

Hope to see you all at the meeting.

## Gem Faire Workers Needed

**This is not our annual show, which is in March! We do need volunteers to “man” our table in order to distribute show flyers for Our Show in March.**

The annual Gem Faire will be held @the Grounds, Roseville Fairgrounds, on January 31<sup>st</sup>, February 1<sup>st</sup> and February 2<sup>nd</sup>.

Three Shifts are as follows (2 volunteers per shift)  
Friday, Noon to 6 p.m., Saturday, 10 - 6 and Sunday, 10 - 5. The time is split up into 3 shifts.

We are given table space to distribute show flyers and information regarding our club. You get to tell the Faire attendees, “At our show, they can get rocks, minerals and jewelry (and oh, yes, beads!)” here at the Fairgrounds on March 28 and 29!

RRR volunteers are needed. We have shifts for 2 1/2 - 3 hours, each of the 3 days. Signups will be taken during the January 14<sup>th</sup> Educational Meeting or e-mail Florence Brady, [fhbrady@jps.net](mailto:fhbrady@jps.net) for more information and to sign up for a shift. (The first and last shifts for Feb. 2<sup>nd</sup>, Sunday are filled.)

### **VOLUNTEERS NEEDED FOR OUR SHOW**

For the RRR 2020 Show, volunteers are needed to help with setup (Thursday afternoon and Friday morning) before the Show and on the weekend of March 28 and 29. A total of about 130 - 140 volunteers, many who work more than one shift will be needed. Friends and relatives can also volunteer.

Every volunteer receives one Workers’ Raffle ticket for the drawing which will be held during the April 14<sup>th</sup> Ed. Mtg.

Clipboards will be on a table during our Jan. 14<sup>th</sup> Educational Meeting. Shifts are clearly labeled on charts for both events. Details for volunteers are on page 5 in this bulletin.

Show your support for our gem & mineral society and sign up to help, either at the Educational Meeting or via e-mail to Florence, [fhbrady@jps.net](mailto:fhbrady@jps.net)

### **Save the Date!**

Saturday February 22nd will be the date for Work Parties for the Silent Auction and the Kids’ Junction. More details in the February bulletin.

## Tumbled Stones Needed

In the past, many members have donated polished/tumbled rocks for the grab bags we use for Kids’ Junction at our gem & mineral show in March. Last year, there was a wonderful show of generosity. We thank you so much for that help. **We filled over 600 bags.**

Karla Shannon buys some brightly colored polished rocks every year from Tucson but they are so expensive. We need more than she can buy. We accept donations all year long and now need to plan for the February 2020 show work party. We appreciate any type, any color, and any amount you are able to donate. **February 11, 2020 is the deadline** to make it for the March 2020 show grab bags. There will be containers at all the meetings from now on. Or, you can see me, Cathy Hutchings, or Karla Shannon so we can properly thank you.

*Carole Kowalik, Juniors’ Advisor, 916-871-0573*

## Raffle Donations

Chris and Denise are requesting donations for the Show Raffle and Door Prizes. We are looking for your **rock art and jewelry**. Also, we are looking for **slabs**. Please ID your items, and add your name if you wish.

## How to Spot a Fake Piece of Amber

When I see amber I instantly think of the movie Jurassic Park. If you have seen the movie, you've seen the techniques used in extracting amber that's been entombed for generations and finally unearthed for human eyes to see. Before and after the movie, many people took advantage by producing fakes. Since more precious amber is harder to come by these days, fakes have popped up all over the market. Humanity has a sneaky way to mimic so called "amber" and it takes a keen eye or nose to figure out if you have a true piece. There is art to figuring out the fakes. Here are some simple techniques that might save you money and heartache.

Research has shown me, if amber is vigorously rubbed against fur, it will produce static and an aroma of pine. Many plastics may replicate the static but the smell of pine is always a good hint that it is genuine. Heating a pin and touching the side should produce that pine resin smell too; if you smell burnt plastic then it is obviously a fake.

Another cool treatment is the water method. By mixing a large amount of salt with water in a bowl or bucket, your amber should float. If not, you may have another plastic fake. With all these useful techniques, it should be easier to spot a fake and find the true treasure.
