

From the President's Pen

Well, everyone, after receipt of this bulletin we are less than a week away from having our 60th Annual Gem and Mineral Show! I truly am excited that this is happening and looking forward to a wonderful weekend surrounded by folks that love everything rocks. So please make sure to tell all your friends and family to come out and enjoy a wonderful weekend at our show.

Along the lines of everything rocks, I found a wonderful website that covered all the different types of sand on this planet and beyond. Some very cool things to see: <https://geology.com/stories/13/sand/>

Another popular item for the kids at our shows is the trilobite fossils, or any fossils for that matter. Here is a story that may lead many of you fossil hunters to seek out the localities to find your own trilobites: <https://www.smithsonianmag.com/travel/five-places-to-see-trilobites-in-the-united-states-180980209/>

So stay cool everyone and see you all in a few days.

— Glenn Fiala

Vice President's Corner

Happy Summer to ya, Rock Rollers! I hope you are staying cool and hydrated as we approach the dog days of summer, in the shade!

August brings our Ice Cream Social/Desert festival, to beat the heat and have a little fun chatting with our members and guests. Bring your favorite ice cream or another dessert to share... And . . .

We will host an informal Show & Tell throughout the evening, so plan to get involved by bringing something you've made, or have an interest in, to explain. Or bring your questions about a rock or process you are curious about, and let us find some answers for you. It doesn't need to be more than a few minutes, so take this opportunity and step up to the mic... this is your opportunity!

On Tuesday Sept. 13, we will have a renowned presentation on Jade by Mike Burkleo. Monterey Jade, and Jades of the world, have been his life's passion, passed down from his father. Mike founded The California School of Jade Carving, with J C Buller, to pass on the fine art and many techniques in carving and sculpting incredible works of art.

YOU WON'T WANT TO MISS IT!

Rookie Rock Roller News

The Rookies will meet in the Garden Room on Tuesday, August 9. We will play different kinds of pebble games. Remember, starting in September the meeting will be in the Lapidary Shop from 5:30 to 6:45. The Rookie program is designed for children 8-17 years of age. I am finding that children younger than that need extra support to do the activities. They need help following directions and completing the activities. I don't want to turn younger children away if they are interested in the program, so I am asking that parents stay with children under eight to assist them one on one.

Over the next year the Rookies will be working on two badges from the Future Rockhounds of America Badge Program. The first is Earth Processes and second is Collecting. In September I will be asking each of the Rookies who are interested in earning the collecting badge to report on their collection as a final requirement for the badge. I will make sure that there is enough repetition and review that it will not be necessary to attend all the meetings to earn the badges. The Rookies are also able to work on these or other badges on their own. Just let me know when they finish a badge, and I will go over it with them.

The club show in August is a perfect opportunity for the Rookies to earn some of the requirements for the Showmanship and Leadership badges. Rookies who volunteer to work at the show or choose to display their collection can complete two or more of the required activities:

Showmanship Activities 6.1, 6.3 and 6.4.
Leadership Activity 9.6

All of the information to complete these activities is in the Future Rockhounds of America Badge Program at www.amfed.org (on the homepage click on Kids Corner, then click on Merit Badge Program, and finally click on AFMS Badge Manual. Parents, please let me know if your child wants to do a display of their collection for the show.

See you in August,
Patty Holbrook, Junior Advisor

His classes include carving decorative patterns from the back, making cabs with inside curves and making the custom tools necessary for these skills.

Classes at Camp Paradise will include basic and advanced silversmithing, beginning lapidary, advanced lapidary, beading, chain making, wire wrap, beginning faceting, Ming tree magnets, enameling, lost wax casting, precious metal clay, dichroic glass, soft stone carving and relief carving. There will be demonstrations of specific jewelry techniques including silver bead forming, fold forming and etching.

All classes will be taught both weeks.
