

## From the President's Pen

For all of you that volunteered and provided your own time in support of the Roseville Rock Rollers, Gem and Mineral Show; thank you! After having a third show in the new venue we are starting to nail down the unknowns and having the show flow with little problems. We could not have succeeded without you all being there helping us setup, run and break down the show.

One of the many things I like to do whenever I am at any location other than home for a long period of time is search out if there just happens to be something near me to collect. Now this could range from rocks, minerals and even fossils. The most difficult thing I have found though is getting hold of the local club/society to find out just where to go collect something. That is where the internet has become very helpful in searching out these oddball places. So I thought I would share some of the random internet tools I have come across to find different material wherever you may end up yourself.

Here is one user friendly map that provides a general location of materials and what materials to be found. Even lists some in our own backyard!

<https://rockhoundresource.com/rockhounding-near-you-2500-locations-with-guides-and-maps/>

When it comes to fossils I have very little knowledge beyond that of a sharks tooth or an ammonite. However, I found this site very interesting when I searched out CA and found we have a lot of stuff in our backyard that we can collect if we wanted to.

Hope you all enjoy the tools and again thank you all for your help this year at our annual show.

— Glenn Fiala

## Vice President's Corner

Greetings RRR members and guests. Turning toward autumn, we look forward to the season changing and a different slate of daily activities with more mild temperatures. Most vacationers are back in town, and our September 12th attendance at the upcoming Educational Meeting should increase a bit.

Our speaker will be Sonya Patel, presenting a fascinating discussion about Amber. If you've had a curiosity, or a few questions, this could be your opportunity to put them to rest.

In closing, Be bold, and ask a guest, or two, to join you. We are here for our community, so let's make them welcome by invitation.

— Vern Deck

### Educational Program

This month's educational meeting will be @the Grounds in Roseville on September 12th at 7:00 PM in the Garden Room.

Join us for a fascinating presentation on all things amber, given by Sonya Patel.

## IN MEMORIAM

Hugh G. Brady was a Lifetime Member (since 1996) of the Roseville Rock Rollers Gem and Mineral Society and was also a member of Fossils for Fun Society.

He passed away on July 20, 2023.

He served as a Director on the Board, and for many years, was in charge of the Society's Silent Auction during the monthly Educational Meetings. He started a new event, for the Educational Meeting after our annual show, he, along with his "assistants" Keith and Carole, held an Oral Auction. This was a job he clearly loved, as he spent hours selecting the items along with a numbered handout for the members. "Bid High, Scare the Other Bidders" and "Wake Up" were frequent statements during a rousing auction!

Driving their Hi-Lo Trailer, and accompanied by Florence and their cat, he went on many field trips for fossils, minerals, and petrified wood. Locally, he collected Roseville petrified wood from areas in Roseville and Granite Bay. Other field trips were in Nevada, Oregon, Utah and Montana along with several in California. He also was the field trip leader for several RRR Society and CO-OP field trips.

For several years, he donated walking sticks to the Silent Auction, which he usually made from dried cactus wood. He carved figures on them and put a cabochon on the top of the stick.

During his stay at Camp Paradise, he made his first of several wire wrapped jewelry pieces. But his real "rockhound" love was going on field trips looking for leaf and insect fossils and collecting rocks and minerals. Many slabs were cut using his 24" Highland Park saw, some were made into clocks.

Below are some photos from his "Rockhound Excursions"!

## RRR's Annual Show

Well, we did it! the 2023 show is packed up and put away. What a great showing of support from our Board, Show Committee, and members. I can only summarize the comments that came my way. Again, our visitors recognized the amazing quality, and variety of vendors that were offered at our show. Our vendors recognized the impact of inflation, and the return of all the other shows in our region, along with the CFMS show in June. This diffusion of buyers and their money is as it should be but cut into the vendors' sales totals. There were a lot of my "touch stone" vendors that stated that they did better than previous shows.

One thing that was consistent with all of them is that the Roseville show is the most organized, friendliest, and "fun" show they do all year. No vendor stated that they will not be looking forward to a contract for next year.

There are some real hero's out there, that stepped up at the last minute and took on huge responsibilities and became veterans in one show. Having been confronted with every possible issue that would challenge anybody, they pulled it together. I am not going to start naming them all, as our bulletin would run on for pages. The real hero is the collective effort and energy of the Roseville Rock Rollers Society!

Thank you to Paula Berg and Florence Brady for the powerful summaries of the lives of our long serving members, Terry Yoschak and Hugh Brady. These memorial cases captured the lives and interest of our members who passed this year.

Nobody died, nobody got hurt, and nobody quit! But did we make money? While we are not in the business as a gem and mineral society to make money, we must make money to stay in business. The Covid years beat us up financially, but we survived with enough funds to invest in the 2022 and 2023 shows. Yes, we did make money. I think the numbers will surprise us all when all the income and all the outflows are measured. There are still receipts being processed and reimbursements being made. Once we have a good number, we will reveal that number.

Our attendance was, once again, found to overcome the usual 2 to 300 that do not return to our show each year, AND increased by 125 over 2019 and 2022! History tells us that after three years of hovering around a static attendance, we make the jump to a new and significant higher number. This is our third year at around 3,000. Next year is the year for us to move forward and bring even more visitors to our show. Please plan to join us on the show committee next year, to pull off another exceptional show!

Jim Hutchings, 2023 Show Chair

## Nominations During September 12, 2023 Educational Meeting

At the annual September Educational Meeting, three (3) RRR members shall be elected to serve on the Nomination Committee. They will select a Chairperson, that person will then call for candidates for each office listed on the white board provided. Below is listed the procedure in total. This can be also found on our By-Laws, listed under Membership on the RRR website: [www.rockrollers.com](http://www.rockrollers.com)

### **Nomination Committee for Slate of 2024 RRR Officers Procedure recently adopted in our By-Laws:**

- The Nomination Committee shall consist of three (3) members, who shall have been members for at least three months and elected by a majority of the general membership at the September Educational Meeting.
- The Chairperson of the Committee shall be elected by the Committee members. The Chairperson will lead and coordinate the Committee's activities.
- The Chairperson will ask for nominations for open positions at the September and October Educational Meetings. Each Committee member will have his/her name and contact information published in the October Society bulletin. The deadline for accepting nominations will be during the October Educational Meeting.
- The Committee will review the qualifications of nominees, verify their eligibility and ensure they meet the qualifications set forth in the Society's By-Laws. Each candidate will provide consent to their nomination.
- After nominations are closed, at the October Educational Meeting, the Nomination Committee shall present its slate of nominees for each office, excluding Show Chairperson. The Slate of Officers will be published in the November bulletin.
- The election of officers shall be held at the November Educational Meeting. The Nomination Committee is dissolved after the elections. The election of officers, if there are multiple nominees, shall be by secret ballot at the November Educational Meeting. Installation shall be made at the December Educational Meeting.
- The newly elected officers, except Show Chairperson, shall assume their duties after the December business meeting and shall continue for one year, or two years in the case of Directors, or until their successors are elected. Both outgoing and incoming officers should attend the December business meeting.

## Roseville Petrified Wood Oral Auction

In memory of Hugh Brady, we will hold an Oral Auction during the RRR Educational Meeting on September 12, 2023.

As the Silent Auction Chair for RRR in the 2000's, Hugh would hold an Oral Auction after the annual Show, so the volunteers for our show would have a chance to bid on something special.

Here is the procedure which will be followed:  
Interested members must sign up and take a bidding card number.  
Bidding will start at \$50.  
Subsequent bids will be increments of \$5.  
Winning bidder gets the Roseville Petrified Wood!  
Please return your bidding “paddles” at the end of the meeting.

## September Board Meeting

The meeting will be held Tuesday, September 26, at 7:00 PM in the club Lapidary Shop at the Fairgrounds.

## Rookie Rock Roller News

The Juniors will meet in the Lapidary Shop on Tuesday September 12, 2023, from 5:30 to 6:45. The entrance is located on Corporation Yard Road. At this meeting we will be using our rock identification kits to identify rocks. We will also complete our Rocks and

Minerals badge. Juniors who have attended most of the meetings in the last year will earn the badge.

The Junior Program is designed for children 8-17 years of age. I am finding that children younger than that need extra support to do the activities. They need help following directions and completing the activities. I do not want to turn younger children away if they are interested in the program, so I am asking that parents stay with children under seven.

In October, we will start working on the Fossils Badge. I am looking for people who would be willing to share their fossil collections with us at our scheduled meeting on the second Tuesday of the month. Please let me know if you are interested in sharing your knowledge and collections.

The Juniors may work on badges on their own. Just let me know when they finish a badge, and I will go over it with them. All the information to complete these badges is in the Future Rockhounds of America Badge Program (on the homepage click on Kids Corner, then click on Merit Badge Program, and finally click on AFMS Badge Manual).

See you in September,  
Patty Holbrook, Junior Advisor
